## Enjoy a great dinner ... while supporting a great cause, at all of these great restaurants.

When you dine at any of these Long Island restaurants from January 15 through April 15, you'll be doing more than supporting your neighborhood restaurant, you'll also be helping to raise money for breast cancer awareness. These restaurants are donating \$2.00 of net proceeds from each dinner entree to these local breast cancer organizations ... and to thank you, you will receive a beautiful commemorative Pink Ribbon Breast Cancer Awareness Pin\*.

As you choose where to dine this week, please think about what a great neighbor your local neighborhood restaurant really is and support them while they support breast cancer awareness.

For over 25 years, the Adolph NY Statewide Breast Cancer Hotline & Support Program has been providing information, support and hope to hundreds of thousands of women and their families and friends throughout New York State. All services, which are free, include the hotline, support groups, counseling, community outreach, educational forums, a newsletter, an educational video for teenagers, a special outreach program to Latino and African American women, and advocacy.

Founded in 1995 by breast surgeon Dr. Virginia E. Maurer, the Maurer Foundation for Breast Health Education is an independent, non-profit dedicated to educating women and men of all ages about the prevention and early detection of breast cancer. The Maurer Foundation is unique in that it focuses exclusively on early detection and preventive lifestyle education. Our free programs have directly educated over 75,000 people in the last ten years in schools, places of business, and community organizations across the New York area.

### CANCERCARE OF LONG ISLAND

CancerCare programs—including counseling, education, financial assistance and practical help—are provided by trained oncology social workers and are completely free of charge. Founded in 1984, CancerCare provides individual help to more than 90,000 people each year, in addition to the more than 1.4 million people who gain information and resources from its website.
